

Module 3: The Sustainable Development Goals

engineers without
borders ireland

Overview

Learning
Outcomes

Duration

The third module of this course introduces students to the Sustainable Development Goals (SDGs).

Students read about the background to the SDGs and how they were created to follow on from the MDGs. They watch a video that introduces the Goals along with questions and statements for them to reflect on.

The last section encourages critical engagement with the SDGs- are they fit for purpose? Are they measurable? Do they oversimplify complex issues? Resources are shared with students for further research.

Module 3: The Sustainable Development Goals

engineers without

Overview

Learning
Outcomes

Duration

On successful completion of the module, students will be able to:

- Explain how the SDGs were created
- List the 17 SDGs themselves and outline what they hope to achieve
- Critically evaluate the contradictions and issues associated with the SDGs
- Apply the SDGs to their concept development and design thinking
