

Module 5: Design Thinking

engineers without
borders ireland

Overview

Learning Outcomes

Duration

The fifth module of this course introduces students to the Design Thinking process and deepens their understanding of it in action.

Students learn about the different stages of the design thinking process and the flow back and forth between these stages.

Students watch short videos of a former WTINE winner, Olivia Holbrook, describing the process of how she and her design partner Rachel created the TIDE Menstrual Toolkit, and their experiences working with communities in rural Nepal.

Further resources on Design Thinking are shared at the end of the module.

Module 5: Design Thinking
